

God Will Always Love You

To reiterate the depth of his love, try this little experiment. You will need:

- glass
- water
- spoon
- favorite powdered drink mix

Explain:

- **Let's pretend that this glass is you. God created you exactly the way He needed you to be, and exactly the way our family needed you to be.**
- **(Pour water into glass as you say): Now, when you were born, God filled you with all His love and all you would need to accomplish His plan.**
- **(Pour drink mix in - but don't stir yet! As drink mix settles to the bottom, say:) Then, when you were baptized, God gave you the gift of His grace and the Holy Spirit.**
- **(Now stir the mix slowly, saying:) God promised He would always love you, no matter what. His love will always stay with you.**

Ask your child to now remove the drink mix from the water. It's impossible. In the same way, it is impossible to ever separate us from God's love for us!
